

OBJECT TO LA FOLLETTE

REPUBLICAN LEADERS WANT TO REPEL HENRY'S MANAGER.

combination said to be forming to head off deals with Marion County delegates—Hicks ahead for the machine notes.

Many Republicans are excited over the reappearance of Henry M. LaFollette in State politics as one of the general managers of the campaign of James R. Henry for nomination of Auditor of State. The situation has been under consideration at headquarters, and some of the party leaders have expressed the opinion that it is time to rebel against the Henry-Robinson-LaFollette organization, which is doing business from an up-stairs room in the Denison Hotel. Within the last few days it has come to the knowledge of members of the Republican organization that the Democrats are "lying awake at night" hoping that the organization in question will be able to "win out" in the convention. Democrats have said to Republican friends that the moment the organization succeeds some in-

teresting stories of financial woe will be made public.

It is related that the Henry-Robinson-LaFollette crowd is depending for success in the convention on its ability to control the 17 votes of Marion county, or at least 10 of these votes. The proposition is to trade Henry into nomination for the vote of this county—much to the surprise of many persons. The Republican "machine" in the county is lending its influence to the scheme.

Combination Thought Probable.

No one on the outside can have any definite information as to whether candidates for other offices have entered into the scheme, but the supposition is that the organization has met with some degree of success. It is pointed out that if other candidates do refuse to contribute to the campaign of the organization for the delegates in this county, the organization should be able to secure the nomination of Henry. In the excitement of the convention, would he be willing to let his better judgment in order to get the 17 votes from the county?

There are indications that since the in-dependence of the party are getting their eyes open, steps may be taken to "head off" the scheme to turn the State committee into a day it. A member of the State committee said to-day it was remarkable that a man who was in the meshes of litigation one day and out the next day was able to appear in court and exposed empty pockets to creditors, and the next day was able to appear in court and exposed empty pockets to creditors, and the next day was able to appear in court and exposed empty pockets to creditors.

Candidates Coming In.

The candidates for the various State offices are arriving at the Denison Hotel one by one, and making ready to receive

their friends the first of next week. John C. Chaney, of Sullivan, candidate for Secretary of State, came in to-day.

There is a special effort being made to bring Tomlinson Hall attractive and well-arranged for the convention. The elevated road will be put up, and there will be a double extension of the stage. The building will be the most of the delegates and the newspaper representatives of the extension of the stage. Seats for women who wish to visit the convention will be reserved in the gallery.

ROCKS AHEAD FOR MACHINE.

State Delegates Threaten to Destroy Marion County's Influence.

Representatives of the party from out over the State, who were here to-day, say there is a general revolt against the effort of the Marion county "machine" to bring the convention by using the 17 delegates from the county as a basis for trading. The prediction is made that unless the scheme of the local machine is broken, it might go so far as to bring out a new candidate for Attorney-General as a punishment to the crowd that is trying to "fix up" the Marion county delegation in this connection the name of Frank S. Robey, of Auburn, judge of the De Kalb-Steuken Circuit Court, was mentioned.

The local machine is boasting it will control at least 15 of the 17 votes from this county. Pressure is being brought to bear on members of the party who threaten to break away from the machine and the party who do not wish to follow the leadership of the Henry-Robinson-LaFollette crowd.

Marion County Primaries.

The primaries in this county next Tuesday night will be by wards and precincts. The following are the meeting places designated by the county committee:

- First Ward—Hillside engine-house.
- Second Ward—No. 18 engine-house, corner Ash and Sixteenth streets.
- Third Ward—No. 14 engine-house, 15 West Sixteenth street.
- Fourth Ward—North Indianapolis engine-house.
- Fifth Ward—Place not fixed.
- Sixth Ward—Gas-house, corner Pratt and Tenth streets.
- Seventh Ward—No. 3 engine-house, Massachusetts avenue.
- Eighth Ward—No. 12 engine-house, on Beville avenue.
- Ninth Ward—Rouse's Hivery stable, Shadel street.
- Tenth Ward—Criminal Court room, Eleventh Ward—Cyclorama building.
- Eleventh Ward—East Market street.
- Twelfth Ward—No. 30 Virginia avenue.
- Thirteenth Ward—Oliver P. Morton Club, corner Cottage avenue and Shelby street.
- Fourteenth Ward—No. 90 South Meridian street.
- Fifteenth Ward—Place not fixed.
- Sixteenth Ward—No. 3 engine-house, corner Morris and Harding streets.
- Seventeenth Ward—No. 3 engine-house, corner East-Sunday-school rooms, Garland avenue and Third Park.
- Eighteenth Ward—Valley Mills.
- Nineteenth Ward—Towship-Township house, near Galathea.
- Twentieth Ward—Spring Valley school-house.
- Twenty-first Ward—Southport school-house.
- Twenty-second Ward—Towship-Township house, near Galathea.
- Twenty-third Ward—Towship-Township house, near Galathea.
- Twenty-fourth Ward—Towship-Township house, near Galathea.
- Twenty-fifth Ward—Towship-Township house, near Galathea.
- Twenty-sixth Ward—Towship-Township house, near Galathea.
- Twenty-seventh Ward—Towship-Township house, near Galathea.
- Twenty-eighth Ward—Towship-Township house, near Galathea.
- Twenty-ninth Ward—Towship-Township house, near Galathea.
- Thirtieth Ward—Towship-Township house, near Galathea.

Prohibition Convention.

The Marion county Prohibition convention will meet in the Criminal Court room at 1 o'clock Saturday. The Rev. A. L. Crim, of Crawfordsville, will address the convention. The convention will be held in the afternoon; in the city in the evening.

Tipton County's Action.

To the Editor of The Indianapolis News:

Having seen several reports of the Congressional convention of the Ninth district, held at Indianapolis on the 28th of July, I am glad to see that the delegates from Tipton county are not only present, but are actively engaged in the work of the convention.

AFFAIRS OF THE RAILROADS

CONDUCTORS LOOKING FOR ALTERED LIMITED TICKETS.

Many with Dates Changed Said to be on Sale Here—Station Hackmen Cautioned by the Police—News of the Railroads.

W. W. Richardson, district passenger agent of the Pennsylvania lines, with headquarters in this city, is one of the passenger men who is rapidly coming to the front. He was for a number of years chief clerk at the Pennsylvania shops in this city, and then became chief clerk to J. J. Turner, when Mr. Turner was appointed superintendent of the Indianapolis division.

Concerning Railroad Men.

William Garstang, superintendent of motive power on the Big Four, is in West Virginia.

Pierre Landers, for several years assistant engineer of maintenance of way on the Indianapolis line, has been assigned. He has been appointed road master of the Wisconsin Central, and leaves Sunday night to take his new position.

Mrs. J. F. Miller, wife of the general superintendent of the Pennsylvania lines, has been seriously ill for several days. She is at the home of her mother, in West Virginia.

J. J. Davis, of the car accountant department of the Hocking Valley, has been transferred to the position of car accountant at the Cleveland division.

J. B. Denison has been appointed traffic manager of the Missouri steamship lines for Texas, with headquarters at Galveston, Tex.

Regulating Hackmen.

Acting under instructions from headquarters, patrolman Shaffer "read the law" to the hackmen and hotel runners who have taken possession of the space in front of the Union station. The hotel runners will have to wear badges, designating the house to which they are attached, and Shaffer will mingle with the hackmen to see that they keep within the limits of the law.

ALtered Tickets.

Passenger conductors running into Indianapolis have been notified to be on the lookout for cheap excursion tickets that have been changed. These tickets are good only on the day they are issued.

Railroad Notes.

Improvements are being made on every division of the Big Four.

The Chicago and North Western Association will hold its regular monthly meeting at Chicago Beach, August 4.

The money has been secured with which to build the Tennessee Central, and work will soon begin on it.

The passenger agents of the Chicago and North Western Association will hold their regular monthly meeting at Chicago Beach, August 4.

so that his death is expected, has not been found. Helmer for several years was a passenger conductor on the Eastern, with his home in this city. He was frequently in trouble because of his quick temper and was "on the carpet" every few days. He struck a passenger on an excursion, and the passenger recovered \$200 damages for the blow.

Greenwood Goes to Bradford.

F. J. Nolan, district passenger agent of the Indianapolis division of the Pennsylvania lines, will move his office from Bradford Junction to Columbus, O., and the office of Trainmaster Greenawald will be moved from Indianapolis to Bradford.

Mr. Nolan will have charge of the yards and engine house at Bradford, and Mr. Greenawald will have supervision of the entire line East and West. This will take every officer on the Indianapolis line from Indianapolis, where some of them have been located since there was a railroad.

Mr. Nolan is chief of the Mobile and Ohio, is sending out notices concerning new train service on that road. The company has put on three fast trains and has offered \$100,000 to the best names to be given to these three trains, and the coupon ticket agents all over an Indianapolis agent has selected "Orange Belt Special" for one of the trains.

Indianapolis started off with a good
lead in the first inning, at 1 scored two
runs. The same thing happened again in
the fifth, and with a lead of four runs,
the game looked like an Indianapolis vic-
tory. In the sixth, however, the Cow-
boys got range of Phillips, and taking
advantage of the error, scored two runs.
In the eighth another combination
of good and bad playing
gave them three runs and the lead. In
the ninth Indianapolis managed to tie the
score for a minute, but in the tenth
they pulled out a game which, up to the eighth
inning, seemed lost to them.

Indianapolis started off with a good
lead in the first inning, at 1 scored two
runs. The same thing happened again in

CHAMPIONSHIP CONTESTS

**GRAT RESULTS EXPECTED AT
THE L. A. W. RACES.**

**Creek Sprint and Long-Distance
Riders will Enter and Contests
will be Final-Other Cycling
Affairs-General Sports.**

L. A. W. Meet, Indianapolis, August 3 to 13.
(Special to The Indianapolis News.)
New York, July 28.—Gardner of Chil-
dres, Cooper, of Detroit; Burt of Buff-
alo; Major Taylor, of Indianapolis;
Walsham, of New York; Stevens, of Ot-
tumwa, Ia., and Tom Butler, of Boston,
will enter the championship races at the
national meet at Indianapolis in the or-
der of the list. The list does not include all
of those who will be factors in the great
championship struggles, for there are
others, including Kiser, of Dayton, O.;
Freeman, of Portland, Ore., and a num-
ber unknown to circuit competition, but
who will be factors in the struggle for
prize of careful preparation. There will
probably be seventy entries in all to the
championships this season, and of these
only twenty-four have qualified along the
circuit. This vast field must be reduced
from seventy to five, and heats and semi-
finals will be held on the circuit.

It is this great number of trial heats
necessary to bring the field down to the
required number for the final, and the
regular circuit-chasers to wonder what the
final result will be. So many accidents are
liable to happen in the championship
series, that a fall on the rough board surface,
injuring the man permanently, a
punctured tire at a vital moment, or a
following rear-end, may cause the
favorite to be out of the reckoning.

The championships represent so much
to a man, that although one large sum
may be won by ten to one a champion-
ship won along the circuit—that it is
the Miller, Taylor, and the others are some-
what nervous about the outcome. For
the championships, at national
level, are the only ones in which the
champion is crowned, and the winner
counted in the ordinary championship
contests, or sixty for a win, twenty for
fourth and ten for fifth.

Difference in Championships.
The difference between a regular
championship race of the circuit
meets, one championship being required
on every circuit program, is this: The
champion is crowned, and the winner
counted in the ordinary championship
contests, or sixty for a win, twenty for
fourth and ten for fifth.

The difference between a regular
championship race of the circuit
meets, one championship being required
on every circuit program, is this: The
champion is crowned, and the winner
counted in the ordinary championship
contests, or sixty for a win, twenty for
fourth and ten for fifth.

My Dear...
I'm going to tell you a
secret this evening—t isn't
exactly a secret, either—but
it's a fact that isn't generally
known, and something that
you probably never thought
of.
I furnished our cozy home
with furniture, carpeting and
draperies from the People's Outfitting Co., and
when I found my taste overstepped my purse, what
do you think they said?

What Did They Say?
Tell Me Quick.

THE ADDITIONAL REPORTS

WHAT THE BROOKLYN, HARVARD AND ERICSSON DID.

Reports Made by Captain Cook and Lieutenant Under- The Poor Marksmanship of Cervara's Gunners.

Washington, D. C., July 26.—The Navy Department has made public the reports of Captain Cook, of the Brooklyn, Capt. Cotton, of the Harvard, and Lieut. Usher, commanding the Ericsson, giving their stories of the destruction of Cervara's fleet. They are as follows:

"At Anigher, Guantanamo Bay, July 7. "At 3:45 a. m., July 7, I gave orders and arrangements were made for general muster at 9:30 a. m. At 9:30 a. m. the enemy were telegraphed by the Iowa as coming out. At the same time they were discovered by the quartermaster on watch, N. Anderson, of this ship, and reported to the officer of the deck. The executive officer, Lieutenant-Commander Mason, who was on deck about to execute the order for general muster, immediately gave the order, 'Clear ship for action, and general quarters.' Signal was made at the same time, 'Enemy coming out, action.' I went immediately forward, stood for the enemy and gave orders to get steam on all boilers. We started with steam on three boilers at about twelve knots speed.

"The head of the Spanish squadron in column was just outside the entrance of the harbor of Santiago, heading about southwest. The Spanish squadron consisted of the Maria Teresa (flagship), Vizcaya, Oquendo and Colon and two torpedo destroyers. We opened fire on the leading ship in five minutes from their discovery.

"The port battery was first engaged as we stood with port helm to head of the leading ship and giving them a raking fire at about 1,500 yards range. The enemy turned to the westward and came close into the land. We then went around to starboard, bringing the starboard battery into action. The enemy hugged the shore to the westward.

"The Brooklyn, leading, was followed by the Texas, Iowa, Oregon, Indiana and Gloucester. The Vixen, which had been to the westward of us and the blockade, ran to the southward and eastward of us and kept for some time off our port side distant about 1,000 yards, evidently intending to guard against torpedo attack upon this ship.

"The firing was very fast, and the whistling of shells incessant, and our shells, with a little injury, were very accurate, and can only be attributed to bad marksmanship on the part of the enemy. The Maria Teresa, which had dropped astern while we were firing, was under the heavy fire of our fleet ran ashore.

The Oregon's Steady Fire.

"The Vizcaya, Oquendo and Colon, continuing on and gaining in distance, the Brooklyn was engaged with the three leading ships of the enemy, which were firing ahead, the Texas, Iowa, and Indiana keeping up a heavy fire, both destroyers attacking the enemy's fleet. We kept up a steady fire and were coming up in the most glorious and gallant style, outstripping all others. It was our object to see this battle, with a large white wave before her and her smokestacks belching forth continual puffs from her forced draughts.

"The Oquendo, soon after the falling out of the Texas, dropped astern and on fire ran ashore. The Vizcaya and Colon continued on under fire from the Brooklyn and Ohio. The three leading ships of our fleet were well astern and out of range. The Texas was evidently coming up fast. At about 1:30 a. m. the Vizcaya was seen to be on fire, and the Oregon passed ahead of her with increased speed, took the lead and gradually forced ahead. The Vizcaya, soon after ran on the beach ashore with her bow to the Oregon to cease firing on the Vizcaya, as her flag was down. Firing immediately ceased, and we both continued the chase of the Colon. She was now about twelve hundred yards away from the beach, and was firing at the Oregon with her main battery. The Oregon kept close to the land, running into all the land batteries, and we were steadily gaining on her.

"We were getting under steam all the time, and now had four and one-half boilers on and the remaining one and a half nearly ready.

"After running for about fifty miles west from the entrance of the harbor into a light of land, beached, fired a gun to leeward and hauled down her flag. The Oregon and Brooklyn had fired, and were landing shells close to her. I was sent on board to receive the surrender. The captain spoke English and received me pleasantly, though naturally very depressed. He surrendered unconditionally. He was polite, shook hands and said his case was hopeless, and that he was glad to be so much for him. I was on board about fifteen minutes. As we came from the Colon the flagship New York came in with the Texas. I reported on board the flagship to Rear-Admiral Sampson, and stated to him that I believed the Colon could be got off.

The Americans Encouraged.

"During the entire action I was in constant communication with you (Schley), so that I was enabled to promptly execute your orders and instructions. The officers and crew behaved with great and unexceptional coolness and bravery, so that it is difficult to discriminate. They were encouraged in their best efforts by your enthusiastic words, and your cheering words, 'Fire steady, boys, and give it to them.'

"The executive officer, N. B. Mason, with his usual zeal, was on board the battery directing the firing and keeping me well informed of the exact condition of the ship and in encouraging both officers and men by his example of coolness and courage.

"Lieutenant Hodgson was on the bridge, coolly and deliberately taking bearings and measuring and giving orders. He was assisted in getting range and noting time by Chief Yeoman George Ellis with a stadimeter until Ellis was killed by a passing shell.

"Lieutenant T. D. Griffin, W. R. Bush, E. Sampson, J. G. Doyle, W. Wells and Ensign Webster, all performed their duty bravely and efficiently. The naval cadets in divisions were also efficient. Naval cadets Halligan, Martin, Abert and Cronan have been especially noted for good service. Ensign W. Wells, your secretary, volunteered for command of a division, and was given the fourth division, and was in station a commissioned officer in a turret.

"Too much praise can not be given to the engineers' department for the hard work done at all steadily raising the steam until the speed rose from twelve to sixteen knots.

"The Marines did splendid service. The gunners did splendid service. The gunners carried messages quickly and effectively. Captain Murphy and Lieut. Jordan were constant in their visit to the different stations to be assured of efficiency.

"Medical Inspector Paul Fitzsimmons and Surgeon E. A. De Valin were in constant attendance at the divisions and on deck to be ready for any emergency. Flag Lieut. James H. Sears was particularly active, standing in the open, directing signals, and reporting the fall of shot and position of the enemy. He was cool and steady.

"Ensign MacFarley attended personally to signals while constantly under

fire, at one time mounting the forward turret, and making the signal himself. His coolness was conspicuous.

Others Mentioned.

"The boatswain, Mr. Hill, was continually about the forecable ready for any duty and materially assisting in watching the fall of shots, and thus checked the ranges.

"The gunner, F. T. Applegate, rendered very valuable and conspicuous service at the battery, making repairs whenever practicable during the action.

"The carpenter, G. H. Warford, was on the alert, watching for effects of shell and in examining compartments, pipes and valves.

"The signal man under Chief Quartermaster O'Connell all stood in the open and performed their duties courageously and to your special attention.

"The valuable and conspicuous services rendered during the action by the gunners, and the coolness and courage of the executive officer, the divisional officers and the gunner, Gaynor, is a natural mechanic, and was an intelligent man, and he went from gun to gun repairing breaks and was constant in his work, keeping them in condition for action.

"(C. G. M.) D. F. Diggins was in all parts of the ship attending faithfully and coolly to the electric apparatus.

"The executive officer, N. B. Mason, was a particularly bright seaman. He was at the wheel and kept the ship steady on her course. He has been particularly known on this ship as a valuable man. He was a good sailor, and was a good shot, and I recommend him for such appointment.

"The ship was struck twenty times by whole shot and shrapnel, and was damaged. No serious injury was done to the ship, and the repairs can be temporarily made by the ship's force, excepting the 4-inch elevating gear. The 4-inch battery was hit in several places, the signal masts, rigging and flags were damaged. The 4-inch battery was destroyed, being cut out by shot and flying pieces of shell. The 4-inch battery was hit in several places, the signal masts, rigging and flags were damaged. The 4-inch battery was destroyed, being cut out by shot and flying pieces of shell.

CLERK OF SUPREME COURT

REPUBLICANS WHO ARE SEEKING NOMINATION FOR THIS OFFICE.

Robert A. Brown, of Johnson; A. M. Higgins, of Terre Haute, and J. W. Weik, of Greencastle, Want the Nomination.

Three active representatives of the Republican party are seeking the nomination for Clerk of the Supreme Court—Robert A. Brown, of Johnson; A. M. Higgins, of Terre Haute, and Jesse W. Weik, of Greencastle. The town of the office is four years, and the place is regarded as one of the pleasant "berths" in the Capitol.

Robert A. Brown was born and reared in Johnson county. He was brought up on the farm. He was graduated from Franklin College in 1884, and taught in the Franklin High School in 1885. He did newspaper work on the Franklin Republican, the Indianapolis Journal and the Logansport Daily Journal until January 1, 1889, when he bought the Franklin Republican. He was twice elected secretary and twice president of the

ROBERT A. BROWN.

Republican State Editorial Association, and four times a delegate to the National Editorial Association. He was vice-president of the Indiana Press Association and vice-president of the Southern Indiana Press Association, both non-partisan. He was president of the Township Trustees' Association of Indiana in 1894. He was chief clerk of the House of Representatives in 1886, when the caucus nomination came to him without opposition, by acclamation. For more than a year he has been deputy Secretary of State, and that appointment came to him unexpected and unsolicited. He has been active in the work of the Lincoln League and State League of Republican Clubs. He is a Knight of Pythias, being a member of the Grand Tribunal of that order. He is also a Mason. He made a race for this office four years ago, and missed the nomination which he now seeks by only twenty-five and one-half votes out of 178.

A. M. Higgins, of Terre Haute, with his parents to Marion, Ind., where he lived until 1889. He attended Oberlin College, Ohio, and in 1887 removed to Terre Haute, his father, the Rev. W. R. Higgins, becoming pastor of the Methodist Episcopal church. Since he went to Terre Haute he has been actively identified with politics. He was active in the organization of the McKinley Club in 1892, was its president for two years, and with its indorsement for the position, was, in 1894, unanimously elected president of the Indiana League of Republican Clubs. He had been district manager of the league in the old eighth district in the previous campaign, and in 1896 was one of the delegates-at-large from Indiana to the national meeting at Cleveland. In 1897 he was re-elected by acclamation as president of the Indiana league, and this year, at the meeting at Lafayette, he was unanimously indorsed by the State league for president of the national league at the Omaha meeting in July.

A. M. HIGGINS.

After he made up his mind to be a candidate for Clerk of the Supreme Court, he withdrew from the race for president of the National League. Jesse W. Weik was born and reared in Greencastle, and the town has always been his home. He is forty-one years of age.

He has always been an active interest in political matters, and has rendered his party service in the campaigns of the past. He speaks both German and English, and in 1887 delivered German speeches for McKinley in various parts of the State. He has devoted some time to literary work, and in collaboration with the late William H. Herndon, wrote a life of Abraham Lincoln, which was published in 1889 and has had an extensive sale. His collection of Lincoln

JESSE W. WEIK.

old. His parents were Germans, and emigrated to this country in 1848. His father was a political exile, and was never permitted to return, even on a visit, to his native land. His education was obtained in the public schools of Greencastle and in Andover University, from which he was graduated in 1878. He bears the distinction of being the youngest graduate of that institution. He has always taken an active interest in political matters, and has rendered his party service in the campaigns of the past. He speaks both German and English, and in 1887 delivered German speeches for McKinley in various parts of the State. He has devoted some time to literary work, and in collaboration with the late William H. Herndon, wrote a life of Abraham Lincoln, which was published in 1889 and has had an extensive sale.
